Action edit example (Cross-Attention correct, Raw CLIP wrong).

Source caption: "People are riding on motorcycles on a scenic road."

Edited caption: "People are pushing on motorcycles on a scenic road"

Cross-attention prediction: contradiction (correct), confidence 1.000.

Raw CLIP prediction: entailment (wrong).

Attribute edit example (Cross-Attention correct, Raw CLIP wrong).

Source caption: "People are lined up by a red food truck."

Edited caption: "People are lined up by a blue food truck"

Cross-attention prediction: contradiction (correct), confidence 1.000.

Raw CLIP prediction: entailment (wrong).

Object edit example (Cross-Attention correct, Qwen2.5-VL wrong).

Source caption: "People in uniform standing in front of a bus."

Edited caption: "People in uniform standing in front of a train"

Cross-attention prediction: contradiction (correct), confidence 0.854.

Qwen2.5-VL prediction: entailment (wrong).

Count edit example (Qwen counting failure).

Source caption: "Two competitors skidding during a dirt bike competition"

Edited caption: "One competitor skidding during a dirt bike competition"

Cross-attention prediction: contradiction (correct), confidence 0.750.

Qwen2.5-VL prediction: entailment (wrong).

Entailment example (Cross-Attention correct, Linear Probe wrong).

Source caption: "A living room with an old fashioned TV and a couch."

Edited caption: "A living room with an old fashioned TELEVISION and a couch"

Cross-attention prediction: entailment (correct), confidence 0.921.

Linear probe prediction: contradiction (wrong), confidence 0.509.

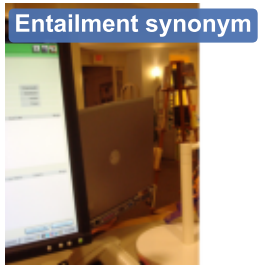
Entailment example (Qwen2.5-VL correct, Cross-Attention wrong).

Source caption: "there is a lounge chair and a black couch in this room"

Edited caption: "there is a lounge chair and a black sofa in this room"

Qwen2.5-VL prediction: entailment (correct).

Cross-attention prediction: contradiction (wrong), confidence 0.763.



Entailment example (Cross-Attention correct, Qwen2.5-VL wrong).

Source caption: "a desk with a monitor and a person holding a laptop"

Edited caption: "a desk with a monitor and an individual holding a laptop"

Cross-attention prediction: entailment (correct), confidence 0.995.

Qwen2.5-VL prediction: contradiction (wrong).

Entailment example (Qwen2.5-VL correct, Raw CLIP wrong).

Source caption: "A picture of a tv screen with two faces overlapping"

Edited caption: "A picture of a television screen with two faces overlapping"

Qwen2.5-VL prediction: entailment (correct).

Raw CLIP prediction: contradiction (wrong).
